Python Basics Practice Day

Problem 1

Take two integers using `input()` and print their **sum**. Remember: `input()` always returns a string, so convert with `int()` before adding. **Sample Input:** 5 2 **Sample Output:** 7

Problem 2

Take an integer `N`. Print `Even` if `N` is even, otherwise print `Odd`. Use the modulus operator `%`. **Sample Input:** 17 **Sample Output:** Odd

Problem 3

Take an integer `marks`. Print the grade using this rule, and put the **highest** check first: `A+` if marks >= 80, `A` if marks >= 70, `Pass` if marks >= 40, otherwise `Fail`. **Sample Input:** 85 **Sample Output:** A+ **Sample Input 2:** 40 **Sample Output 2:** Pass

Problem 4

Take an integer `N`. Use a `while` loop to print numbers from 1 to `N`, each on a new line. Do not forget to increase the counter. **Sample Input:** 5 **Sample Output:** 1 2 3 4 5

Problem 5

Take an integer `N`. Use a `for` loop and `range` to print all **odd** numbers from 1 to `N`. **Sample Input:** 10 **Sample Output:** 1 3 5 7 9

Problem 6

Take an integer `N`. Print all numbers from 1 to `N`, but **skip** multiples of 3 using `continue`. **Sample Input:** 10 **Sample Output:** 1 2 4 5 7 8 10

Problem 7

Keep taking integers as input. Add them to a total. **Stop** when a negative number appears (`break`). Do not add that negative number. Then print the total. **Sample Input:** 4 8 15 -3 23 **Sample Output:** 27

Problem 8

Take a word as input. Print the first character, the last character, and the length, separated by spaces. **Sample Input:** Python **Sample Output:** P n 6

Problem 9
Take a string as input. Count how many vowels it has (`a, e, i, o, u` in both lowercase and uppercase) using a loop. Print only the count. **Sample Input:** Education **Sample Output:** 5

Problem 10
You are given a list of marks: `[90, 40, 75, 88, 35]`. For each mark, print the mark and `Pass` if it is at least 40, otherwise `Fail`. Then print how many students passed and the average of all marks. **Sample Input:** *No input* **Sample Output:** 90 Pass 40 Pass 75 Pass 88 Pass 35 Fail Passed: 4 Average: 65.6
